Jennifer Junto Houck

“Our two girls have been participating in early arts and tap dance at Cavod ... and we are very pleased with the quality of instruction, the kindness of the staff, and the integrity and Christian values of the organization.”

Ballet

Cavod Academy's Ballet Curriculum proudly builds on the foundations of the Italian, French, and Russian schools of ballet in order to bring a well-rounded education to our students. Each level has been created to produce technically sound dancers. During class, students will learn new vocabulary, master musicality, and achieve steps appropriate for their unique level of growth.

Our modern dance program combines strong ballet technique with freedom of movement and expression. Students will build improvisational techniques, partnering skills, and the use of the body to portray emotion. This genre challenges dancers to take risks with their movement and to be creative.

Contemporary encompasses different elements of modern, ballet, jazz, and hip hop. It plays a role in both the commercialized dance world and the fine art dance world, ranging from lyric-driven to abstract movement. It is athletic and often focuses on the use of long extensions, turns, and daring tricks that often transition to and from the floor. The students will largely focus on phrase work and building off of choreography week to week.

Hip Hop

In this street dance style, students will learn how to count music, dance to a rhythm, isolate different body parts, and learn distinctive hip hop movements. Our hip hop program allows students to broaden their creativity in a holistic way by exploring different styles such as breakdancing, popping, locking, tutting, and more.

Worship Dance

Worship dance embraces the gift of dance solely for praising the God who created us. The class gives dancers the opportunity to turn off everyday life, and enter into a time of prayer and worshipping Jesus through movement. It is our desire to glorify and give back to God the gift that He has given us!

Acrobatic Arts & Gymnastics

Step & Stomp and Hand-to-Hand Combat

Step & Stomp is a blend of the two dance/physical theatre forms, Step Dance and Stomp. Step is a form of percussive dance in which the participant's entire body is used as an instrument to produce complex rhythms and sounds. Stomp (well known due to famous performance groups like "Stomp" and "The Blue Man Group") is a form of movement that uses the body and ordinary objects to create percussion, dynamic rhythms, and produce a physical theatre performance quality.

Hand-to-hand Combat is a self defense class from a Christian perspective. Students will grow physically and mentally through rigorous training in the art of discipline and respect and will gain an understanding perspective as they move through the ranks. They will also grow spiritually as they learn that God is their source and that He is the ultimate defense and the one to trust at all times.

Acting Classes

This year, Cavod is raising the standard and revamping its acting program. Our new curriculum has been developed with a group of professors and professionals from theatres and colleges in Lancaster county. Our teachers are equipped to dive deep alongside their learners into the art of acting. We will give our students the tools to display and encounter emotions, characters, and tell stories in a healthy, biblical, and skillful way. Our thespians will grow through instruction, collaboration, exploration, and a lot of fun.
